Direct transactions reviewed annually

- ▶ Diversified portfolio that seeks attractive risk-adjusted returns for reduced volatility compared to public markets⁴
- ▶ Exposure to direct equity, direct credit and secondaries through a single allocation
- ▶ Aiming to invest the majority of portfolio in co-investment deals with preferential fees and terms⁵

Monthly Commentary

September marked thirteen months of performance for the Hamilton Lane Private Assets Fund, with AUM to date of over \$225 million and a monthly return of +0.14%, bringing cumulative returns to +23.02% for the Class I shares. This brings annualized returns since inception to +21.07%, with 38 investments made into more than 100 underlying companies alongside 34 general partners. The portfolio is diversified across direct equities, secondaries, and direct credit investments, as well as by geography and sector, resulting in broad access to the private markets for potential investors.

September's performance demonstrated the importance of diversification across investment types in the Fund's portfolio construction. While secondaries have made up more than 60% of gains to date in the portfolio, this month the secondary portion of the portfolio was down slightly, negatively impacted by broader market movements. Fortunately, the direct equity and direct credit positions created a positive return for the portfolio when taking into account the losses on the secondary side.

The two largest drivers for the month were a direct deal into Visma alongside TPG as an equity partner and a direct credit investment into AML RightSource alongside lead credit sponsor MidCap. Visma is a provider of mission-critical SaaS solutions to small-medium enterprise and public sector businesses across Europe, particularly the Nordics and Benelux regions. The investment into Visma is largely an acquisition-driven strategy, which has played out successfully and garnered additional outside interest in the 12 months since investing. In early September, an announcement of an outside investment implied a materially higher valuation than the Fund's holding value, driving up our September mark.

AML RightSource is the leading outsourced provider of anti-money laundering, know your customer, and Bank Secrecy Act solutions to banks and non-bank financial institutions. Despite being predominantly a credit position, our investment into AML RightSource contains an equity kicker that has appreciated in value due to substantial EBITDA and revenue growth. Much of this is attributable to acquisitions that have expanded the company's services and international presence since our investment, as well as industry tailwinds toward enterprise risk management software.

As of mid-October, PAF had less than 5% free cash, with all additional cash penciled for deals expected to close in the next 1-2 months. The future pipeline continues to be strong, particularly within direct equity, single-asset secondaries, and senior credit.

Class R	XHLRX	\$11.38	0.08%	13.84%	22.51% [†]	20.73% [†]
Class D	XHLDX	\$11.41	0.12%	2.83%	—	2.83%

****Returns shown less than one year are cumulative. Returns shown over one year are annualized. Returns shown net of all fees and expenses. Past performance is not a guarantee of future returns.**

[†] Class I and R shares were offered as of January 4, 2021. The Share Class performance for periods prior to January 4, 2021 reflects the performance of the Evergreen Private Fund L.P. with an inception date of September 1, 2020. Class D shares were offered as of August 1, 2021.

The Hamilton Lane Evergreen Private Fund LP (“EPF”) was reorganized into the Hamilton Lane Private Assets Fund (“PAF”) on 12/31/20. PAF is under common management of the prior EPF noted above. Performance for each investor will vary from overall fund performance depending on fee structure and timing of investment. The historical returns attributable to prior EPF does not represent the actual performance, and is not indicative of future results, of PAF. There is no certainty that PAF investment objectives will be met. Additional information is available upon request. EPF and PAF both have a management fee of 1.50%. The fee for EPF was calculated based off of the greater of the Fund’s NAV or NAV plus uncalled commitments, whereas PAF is calculated based off of the average daily managed assets. Any differences between the calculations as a result of the different fee bases is expected to be minimal.

* Qualified Client: Shares are generally being offered only to investors that are either (i) U.S. persons for U.S. federal income tax purposes or (ii) non-U.S. persons that meet eligibility standards as defined by the Fund pursuant to applicable law in the relevant jurisdiction

¹The Investment Management Fee is equal to 1.50% on an annualized basis of the Fund’s average daily Managed Assets during such period. “Managed Assets” means the total assets of the Fund (including any assets attributable to money borrowed for investment purposes) minus the sum of the Fund’s accrued liabilities (other than money borrowed for investment purposes). Because the Investment Management Fee is based on the Fund’s Managed Assets, any leverage utilized by the Fund will result in an increase in such fee (as a percentage of net assets attributable to Shares). The Investment Management Fee is paid to the Adviser before giving effect to any repurchase of Shares in the Fund effective as of that date and will decrease the net profits or increase the net losses of the Fund that are credited to its Shareholders.

The unleveraged expense ratio as of the most recent prospectus for Class I shares is 3.86% gross/3.41% net; Class R shares is 4.56% gross/4.11% net; and for Class D shares is 4.11% gross/3.66% net. As of the date of the commentary, the Fund was unleveraged. See prospectus for leveraged expense ratios and fees.

The Advisor has contractually waived certain Fund expenses through January 4, 2022 and will automatically renew for consecutive twelve-month term. The performance returns for the Fund reflect a waiver in effect. In the absence of such waiver, the returns would be reduced. Performance figures do not reflect the 2% early withdrawal fee that may apply to some unit holders. Review the prospectus carefully for a complete list of fees, expenses and repurchase terms.

² Inclusive of \$92.0B in assets under management and \$665.0B in assets under supervision as of June 30, 2021.

³ As of December 31, 2020

⁴ Although the Fund is allocated across sectors and asset classes, it is a non-diversified fund and subject to risks associated with concentrated investments in a specific industry or sector and therefore may be subject to greater volatility than a more diversified investment.

⁵ Typically, there is no management fee or performance fee paid to participate alongside underlying managers unlike an investment in a FOF structure.

DISCLOSURES

Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before investing. You should consider the Private Assets Fund's investment objectives, risks, charges, and expenses carefully before investing. For a prospectus that contains this and other information about the Fund, call 1 (888) 882-8212 or visit our website at www.hamiltonlane.com. Please read the prospectus carefully before investing. Past performance is not indicative of future results. Investing in the Fund involves risk including loss of principal.

The Fund operates as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended.

Shares are speculative and illiquid securities involving substantial risk of loss. Shares are appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment and for whom an investment in the Fund does not constitute a complete investment program.

The Fund has limited operating history and the shares have no history of public trading and it is not anticipated that a secondary market for Shares will develop. We do not expect a secondary market in the shares to develop.

Shares are subject to substantial restrictions on transferability and resale and may not be transferred or resold except as permitted.

The Fund is not a liquid investment. No Shareholder will have the right to require the Fund to redeem its Shares. The Fund from time to time intends to offer to repurchase Shares pursuant to written tenders by the Shareholders. The Adviser anticipates recommending to the Board that, under normal market circumstances, the Fund conduct repurchase offers of no more than 5% of the Fund's net assets generally quarterly beginning on June 30, 2021 (or such earlier or later date as the Board may determine) and thereafter quarterly. Any repurchases of Shares will be made at such times and on such terms as may be determined by the Board from time to time in its sole discretion. The Fund may also elect to repurchase less than the full amount that a Shareholder requests to be repurchased. In determining whether the Fund should offer to repurchase Shares from Shareholders of the Fund pursuant to repurchase requests, the Board may consider, among other things, the recommendation of the Adviser as well as a variety of other operational, business and economic factors.

An investment in the Fund is generally subject to market risk, including the loss of the entire principal amount invested. An investment in the Fund represents an indirect investment in the securities owned by the Fund. Shares are appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment and for whom an investment in the Fund does not constitute a complete investment program.

Some of the principal risks of the Fund include limited operating history, limited liquidity, restricted and illiquid investments, non-diversification, and valuations subject to adjustments. The Fund may engage in the use of leverage, hedging, and other speculative investment practices that may accelerate losses.

Although the Fund is allocated across sectors and asset classes, it is a non-diversified fund and subject to risks associated with concentrated investments in a specific industry or sector and therefore may be subject to greater volatility than a more diversified investment.

The amount of distributions that the Fund may pay, if any, is uncertain. The Fund may pay distributions in significant part from sources that may not be available in the future and that are unrelated to the Fund's performance, such as offering proceeds, borrowings, and amounts from the Fund's affiliates that are subject to repayment by investors.

Certain investments in the Fund are illiquid making it difficult to sell these securities and possibly requiring the Fund to sell at an unfavorable time or price. The value of certain Fund investments, in particular non-traded investment vehicles, will be difficult to determine and the valuations provided will likely vary from the amounts the Fund would receive upon sale or disposition of its investments.

The valuations reported by the Portfolio Fund Managers, based upon which the Fund determines its month-end net asset value and the net asset value per Share may be subject to later adjustment or revision. Because such adjustments or revisions, whether increasing or decreasing the net asset value of the Fund at the time they occur, relate to information available only at the time of the adjustment or revision, the adjustment or revision may not affect the amount of the repurchase proceeds of the Fund received by Shareholders who had their Shares repurchased prior to such adjustments and received their repurchase proceeds, subject to the ability of the Fund to adjust or recoup the repurchase proceeds received by Shareholders under certain circumstances.

The information contained in this presentation may include forward-looking statements regarding returns, performance, opinions, the fund presented or its portfolio companies, or other events contained herein. Forward-looking statements include a number of risks, uncertainties and other factors beyond our control, or the control of the fund or the portfolio companies, which may result in material differences in actual results, performance or other expectations. The opinions, estimates and analyses reflect our current judgment, which may change in the future.

All opinions, estimates and forecasts of future performance or other events contained herein are based on information available to Hamilton Lane as of the date of this presentation and are subject to change. Past performance of the investments described herein is not indicative of future results. In addition, nothing contained herein shall be deemed to be a prediction of future performance.
